

PRSA PUGET SOUND PRESENTS: “PR IN TIMES OF PANDEMIC: ALL WE NEED IS A VACCINE”

[Claire Hudson](#) from Fred Hutch and [Monica Graham](#) from PATH will tackle the most important race in our time: Developing a vaccine for Covid-19. As cases continue to climb and the stock market veers wildly, the reality among most health professionals is we won't fully return to normal until we develop a vaccine. How close are we? What challenges lie ahead? And what should you as a communicator be telling your organizations about this unprecedented race for a cure?
